

The interdisciplinary methods challenge: some highs and lows

Thursday 14th July 2016 2pm-3.30pm
Highfield Campus B44/R1061

What happens to qualitative methods when researchers team up with scientists or developers? We explore the doing of qualitative research beyond the social sciences.

Dr Kate Lyle, Research Fellow, Department of Sociology, Social Policy and Criminology, University of Southampton

Title: Framing interdisciplinarity: how (not) to collaborate across the sciences

Dr Rebecca Eynon, Associate Professor, Oxford Internet Institute and Department of Education, University of Oxford

Title: Big data meets small data: the importance of multidisciplinary teams in addressing social science questions in the digital era

The seminar is free of charge. Booking is not required.

The presentations will be recorded and posted up on the QUEST website:

www.quest.soton.ac.uk/training

About the Qualitative Expertise at Southampton (QUEST)

The QUEST series of seminar discussions features expert practitioners of qualitative methods based to discuss and explore methodological approaches. Experienced and new researchers from within and outside of the University are welcome. QUEST promotes the development, application and teaching of qualitative methods.
